After a careful investigation no doubt was left that the man died from an overdose of laudanum administered by himself. Carter had been for a short time past in charge of the dispensary at the receiving station. He left a native wife by whom he had ten children.

### PERSONAL.

Friends of Dr. J. M. Whitney, who went to San Francisco by the last Australia in a poor condition of health, will be pleased to learn that he has written a report of himself with his own hand, which was disabled when he left here. He endured the voyage, which was a rough one, with comparatively little discomfort, sleeping as well or better than before he left Honolulu. He will take treatment at Passa Robee hot springs. L. M. ### UNITED STATES.

Major-General George Crook died suddenly at the Grand Pacific Hotel, Chicago, 21st inst., it is supposed from heart failure. He was born near Dayton, Ohio, Sept. 8, 1829. He had an active and honorable military career. It is supposed he undermined his constitution in his Indian campaigns.

Ex-State Treasurer Hemingway of Mississippi has been released on \$25,000 bail.

A man named Schweinfurth is preaching in Illinois that he is the Savior and claims to have raised a dead boy to life.

The Supreme Court of Illinois has given a decision implying that the Chicago gas trust is an illegal organization.

Eyraud, who strangled a man in France, is pursued by French detectives all over the country, but baffles them at every point. He pawned part of the murdered man's jewelry at Montreal, and did a lot of stealing at New York hotels. A detective is watching for him at San Francisco.

The National Baseball League has only nine clubs left.

Father Dougherty, pastor of St. Monica's Catholic Church, New York, succeeded in a scheme for liquidating a mortgage of \$120,000 on the church, by inducing eleven members to insure their lives for the benefit of the fund. Higher dignitaries of the church look with much favor on this novel means of wiping out ecclesiastical debt.

The New York Court of Appeals has affirmed the judgments of the courts below in the case of Kemmler the murderer. His execution will be the first by electricity on record.

Jack McAuliffe defeated Jimmy Carroll in a fight of forty-seven rounds at San Francisco on the 21st.

### EUROPE.

The Prince of Wales was given a banquet by Emperor William in Berlin, who proposed his health in a very complimentary speech.

### RESIGNATION OF BISMARCK.

Prince Bismarck has resigned the post of Chancellor of the German Empire. In accepting his resignation Emperor William wrote him a long and eulogistic letter, concluding with the following commission:—"I, therefore, create you Colonel-General of Cavalry, with the rank of General Field Marshal. I pray God that in this post of honor you may be preserved to me for many years."

The monarchical press in Madrid, both Liberal and Conservative, regard the retirement of Bismarck as a cause for grave apprehension in Europe. The republican press, on the other hand, receive it with exultation as leading to the possible dissolution of the empire and the advancement of their own ideas.

General von Caprivi is Chancellor in place of Prince Bismarck.

A Berlin paper says the Emperor declines to accept the resignations of the Prussian Ministers, and that the rumors of revision of embassadorship appointments are premature.

### LABBY ATTACKS THE LORDS.

In the House of Commons, on the 21st, Labouchere moved the abolition of hereditary representatives in Parliament. The people would not long tolerate the idea of several hundreds of men born with the privilege of interfering with the Government and to legislate as a class. The House had the spectacle before it of men excluded from jockey clubs and warned off race courses, and yet able to interfere with the legislation of the nation. The motion was rejected by a vote of 201 to 139.

### CRUELTY TO SIBERIAN EXILES.

A Russian in New York has received a letter from a fellow-countryman in exile in London, giving painful revelations of the condition of exiles in Siberia. The number of these sent out in 1886 numbered 16,840 nihilists or their reported supporters. In 1887 there were added 14,277 more; in 1888 the number was 15,015, and in 1889 the exiles were 12,000. Of the number exiled the deaths range from 180 to 220 per 1000, due to natural sickness, cold, exposure and knout punishment. The suicides average about 20 to the 1000. During the month of August, 1889, in one of the central political prisons, 275 of the 490 prisoners were prostrated with fever.

### REPORT OF PARNELL COMMISSION.

The motion of the Marquis of Salisbury in the House of Lords, that the report of the Parnell Commission be adopted, passed without division after a sharp debate. Salisbury said that Parnellites in Parliament were ready to make use of crimes committed outside.

Baron Herschell attacked the one-sided character of Salisbury's speech. The verdict of public opinion was on the side of the Parnellites now, and, when the story of the episode was fully written, condemnation would not rest upon the Parnellites, but concentrate upon their accusers.

Lord Kimberley said that the whole case was pivoted upon the forgeries and it was only just to record that the charges based thereon had collapsed.

Lord Spencer said he could not support the motion without also recording the great wrong inflicted upon Parnell. The old method of governing Ireland had failed, and the only remedy was to throw upon Irishmen the responsibility of managing their own affairs.

Lord Rosebery severely censured the Government for offering no reparation to Parnell, and for taking no steps to punish the Times. He concluded with an eloquent reproach and warning to the Irish aristocracy, saying that all history gave evidence that an aristocracy separated from the people was doomed.

Mme. Pommeroy, a great wine dealer of France, is dead. She left a fortune of over 20,000,000 francs.

Mme. Pommeroy was a generous patron of art, and paid 400,000 francs for "The Gleaners," by Millet.

The Austrian Emperor has accepted Tisza's resignation. Russian re-enforcements have been sent to the Gallician frontier.

### MISCELLANEOUS.

A crisis threatening to develop into revolution in the province of Rio Grande de Sul, Brazil, was averted by the resignation of the Governor who was obnoxious to the Republicans.

A Brazilian company has bought a shipbuilding yard at Scotswood on the Tyne, which had been idle for years. The company will build a fleet of steamers to navigate Brazilian rivers.

The Government leader in the Canadian Senate has introduced a bill to grant the Legislature of the Northwest Territory the right of making direct taxation for municipal and territorial purposes and leaves the question of the abolition of the official use of the French language to the Legislature after the next general election.

### OUR AMERICAN LETTER.

Forty Percent off the Sugar Duty.—The American Refinery Indemnity Closed.

[Correspondence of the Bulletin.]

SAN FRANCISCO, March 22d. The Belgic sails to-day for Honolulu en route to China and this provides an off mail.

The sensation of the day, so far as the Islands are concerned, is in the fact that the Republican members of the Ways and Means Committee have agreed to report a Tariff bill which would

REDUCE THE SUGAR DUTY BY FULLY 50 PERCENT.

The committee estimates the reduction in revenue by the new schedule at \$27,000,000 yearly. The proposal is to impose an *ad valorem* duty of 35 percent on raw sugars from No. 16 Dutch standard downward, and refined sugar above 16 Dutch standard is to pay a duty of 60 percent *ad valorem*. The bill makes no provision for a bounty on American sugar, and of course does not take into account moral obligations under the Hawaiian Treaty.

A strong protest has been made against the sugar tariff on behalf of the Louisiana and Florida cane sugar interests, but these will hardly prevail in the House should McKinley insist upon reporting the bill, although it is probable the Senate will be influenced by them. Probably the San Francisco Chamber of Commerce and the Board of Trade will jointly memorialize Congress against reducing the duty on sugar for the reason that it would destroy the beet sugar industry, which has such a promising future ahead of it if the tariff be left without change. Nebraska and Kansas, which are developing beet and sorghum sugar industries, will probably be heard from, although a Nebraska representative on the Ways and Means Committee states that he favors absolutely free sugar, in other words, that he would prefer closing all American refineries, and import from countries where cooler labor and low taxation enable refined sugar to be made cheaper than in this country.

[Washington despatches of the 21st inst. state that the sugar duties would be increased, from what they are in the bill, to conform to protests, but only slightly.—Ed. BULLETIN.]

## THE IROQUOIS DISABLED.

Driven Under Sail to Port Townsend.

The Mohican Ordered to Samoa.

San Francisco papers have the following despatch, dated Washington, March 12:—

"The recent accident to the United States steamer Iroquois, while on her way from Honolulu to Samoa to relieve the Adams, which necessitated her putting into Port Townsend, Wash., will prevent her from performing service at present, and another vessel will have to be sent to Apia."

Admiral Brown, commanding the Pacific squadron, has ordered the United States steamship Mohican to sail at once to relieve the Adams, which is under orders to return to San Francisco for repairs as soon as the other vessel arrives."

The San Francisco Bulletin of the 11th has the following editorial note:—

"It is a little remarkable why the Iroquois, a full-rigged, old-fashioned, wooden cruiser, should have been unable to make a passage under sail after the breaking down of her machinery, and be driven to a leeward port with all hands in a starving condition."
